

Home Learning

Homework: Due in Thursday.

Spelling-

Personalised. Take 10 spellings from your writing which you often get incorrect and practise at home. We will test each other next week.

Maths- Adding and subtracting fractions (choose a sheet to challenge you).

Times tables: Mixed (0-12)

Attendance: 97.6%

Let's keep aiming for 100% Oaks!

Dear Families,

This week, the Oaks continued delving into the Iron age to Stone age. They learnt all about Stone Henge and it was amazing to see how much extra learning lots of you had done at home!

In Science, they used their knowledge from last week's learning about pollination and wind dispersal to think about how fruit is produced. They inspected the inside of different fruits and hypothesised how seeds from these plants are dispersed. Then, they combined their Science learning with art to sketch the inside of the fruit.

Combing their D&T skills with Topic, the Oaks have been designing a clay pot for the modern day yet inspired by Stone Age pottery. In particular, they thought carefully about how they would make their design.

Excitingly, they have been planning and writing their balanced argument this week (and they have had freedom to choose what they will write it on!) Thinking carefully about their structure, they were also challenged to up-level their use of grammar and sentence structures to write a more mature piece.

Finally, the Oaks did fantastically in their Fractions end of block assessment and are continuing to practise these skills each day. In particular, ordering fractions and adding and subtracting fractions. Keep practising at home too Oaks!

Miss Houcke

Worker of the Week

Worker of the week this week is for Ollie for his true focus to improve his understanding of fractions and showing patience and honesty.

Presentation Award

Presentation award this week is for Ava for improving the size of her letter formation and taking pride in her writing across all subjects.
